**ENTITY:** Corporation

**COMPANY HISTORY**

ENG-TECH Consulting Limited is an employee owned company with a full time staff of 20 and a typical seasonal staff of 30. ENG-TECH specializes in providing geotechnical, environmental engineering and materials testing services. The company offers a full range of geotechnical engineering services such as slope stability, foundation design, seepage and groundwater modeling, and soil assessments. ENG-TECH's material testing laboratory is fully equipped to test soils, aggregates, asphalt, mortar and concrete, with the laboratory and staff being CSA-Certified for the testing of concrete.

**DESCRIPTION OF SERVICES**

Construction Management (On Site)  
Contract Documents & Bid Evaluators  
Inspection/Testing/Laboratory Analysis  
Pre-feasibility/Pre-investment/Feasibility Study  
Preliminary/Final Design  
Process Evaluation and Selection  
Project Management (On behalf of owners)  
Quality Control/Assurance  
Quantity Surveying/Cost Estimating  
Research and Development  
Supervision/Inspection/Construction  
Technical Assistance/Advisory Services
