### **Paterson GlobalFoods Tour**

On April 29th, the YPC held a tour of the Paterson GlobalFoods Institute. The building was recently renovated to serve as part of the downtown campus of Red River College. Originally, the building served as the Union Bank and was opened in 1904. As one of the first modern day skyscrapers in North America, the building stands at 10 storeys tall. Led by Facilities Manager, Murray Heibert, twelve young Professionals attended the tour. The tour visited the culinary arts classrooms, the student run restaurant (Jane's), the student run cafeteria and the student residence. Overall, the building displayed many feats of Structural, Mechanical and Electrical Engineering.

It is likely that a few from the tour will be looking to make a reservation for dinner at Jane's, plan an event on the roof top patio with beautiful city views, or just maybe register for the mixology class offered by the college. After everyone's mouth was watering from seeing all of the delicious food being prepared, the attendants of the tour went to the King's Head Pub for some socializing, refreshments and appetizers. Thank you to all that attended the tour and for those that were unable to attend we hope that you will join us for the next event. As well, thanks to Murray Heibert for volunteering his time to show us this marvellous renovated building.
