Companies of

ACEC-MB Transportation Reception

The Association of Consulting Engineering Companies – Manitoba “Transportation Committee” extend an invitation to **all ACEC-MB members** to attend the Annual Transportation Reception.

The invitation has been extended to include staff from both MIT and the City of Winnipeg Public Works and Transit Departments. This is a great opportunity for both agencies to meet in an informal setting to discuss issues of interest to the Transportation Community.

Date: Thursday March 2, 2017

Registration and Reception: 4:30 – 7:30 pm

Manitoba is on LinkedIn and Twitter. Follow us to stay up to date with all ACEC Manitoba announcements, including professional development opportunities, YP events, important notices, and much more. To join or visit our website, click the links below.

ACEC-MB EST: Energy Reception

When: Tuesday, March 7, 2017

Registration & Reception: 4:30 pm – 7:30 pm

Where: The Metropolitan Entertainment Centre, 2nd Floor, 281 Donald Street, Winnipeg MB

Cost: \$110.00 + GST

On-line Registration & Payment: (coming soon)

(As ACEC-MB still incurs catering costs related to no shows, members who register but do not attend will be invoiced unless cancellations are received 72 hours prior to the event. Substitutions are welcome)

ACEC-MB TWICE Industry Reception: Save the Date

Save the Date!

Date: Wednesday, March 8, 2017

Time: Reception 6:00-7:00 / Panel Discussion 7:00-8:00

Location: Fort Gibraltar

Event Description:

Diversity is entering the profession in various ways. Some shifts are societal, such as strong immigration to Canada bringing an increasingly culturally diverse workforce to the profession. Within Canada, there is increased awareness of the benefits to actively work toward greater Indigenous participation in

the professional workforce. Across society, people of different sexual orientations and all gender identities are expecting to be included free of harassment or stigma. Longer careers highlight the differing value orientations of generations in the workforce, ranging from Millennials, Generation X, Boomers, and Builders. In engineering, we are acutely aware of our long-standing imbalance in the numbers of women in the profession, and our lack of meaningful progress in increasing female participation and retention in the profession.

We have assembled a panel of two women and two men who represent different parts of our industry and are all leaders in their organizations, to help us explore perspectives on diversity. We've asked the panelists to think about how diversity shows up in their workplaces, the roles they play to address diversity as leaders in their workplaces, and challenging all of us to recognize our own points of privilege.

**Call for Volunteers: Winnipeg Rotary
Career Symposium**

The 10th annual Engineering Innovation Challenge wants you!

Event: 10th Annual Engineering Innovation Challenge (EIC)

Description: A fun and interactive engineering competition where high school students design, build and test catapults while learning to use skills essential to a technological work place such as time management, resource management, and team work. The Engineering Innovation Challenge Committee is looking for volunteers to assist during the event at the Rotary Career Symposium. For additional information please contact Mark Stobart.

Location: Rotary Career Symposium at the Convention Centre

Date: Wed March 15th and Thursday March 16th, 2017

Contact: Mark Stobart at Teshmont Consultants LP
Phone 284-8100 ext. 1277, email:

Event Recap

2016 ACEC-MB Mentorship 2nd Event

Mentorship Program 2nd Event - "Panel Discussion: **Leadership, Management & Engineering for Career Growth**"

The 2nd event of the 2016-2017 Mentorship Program was held January 23rd at the University of Manitoba. The event was open to both students and professionals, and was attended by over 30 people. The panel discussed the multi-faceted challenges of managing today's work environment and how to work collaboratively to produce high performing teams. The panel featured 3 consulting engineers;

- Robert Taylor, P.Eng (Dillon Consulting)
- Bert Jackson, P.Eng (Hatch)
- Lin Watt, PMP, EIT. (Tetra Tech)

The discussion was moderated by the YPC's own Sohaib Azam (Hatch). The Mentorship team would like to thank the panelists who volunteered their time and perspectives, and all the mentors who make the mentorship program possible.

Spotlight on YP Committee

Spotlight on...

Carol Nabanoba Musoke

Carol Nabanoba Musoke, EIT "Don't let the fear of striking out keep you from playing the game." *Babe Ruth*

Role: Gala and Events

Employed by: AECOM as a Water/Wastewater Engineering Intern

Studied at: University of Manitoba

And left with a degree in: Biosystems Engineering – Process

Why I love my job: The variety of projects with design

work, contract administration and project management. Every project and design brings its own challenges. Most importantly determining what the client's problem is before embarking on the design is the most interesting part of what I do.

What I do in my free time: Depends on the season. In the summer I enjoy hiking, camping, running, road trips, biking, and berry picking. In the winter I still love the outdoor running, cross country skiing, tobogganing, and skating. In the fall running still makes my list along with baking, long walks, gallery and arts nights, and sightseeing. I typically skip over spring because I dislike the slush!

Song that best describes my life: That would have to be "I can't stop the feeling" *Justin Timberlake*

Mac, Windows or Linux? Mac all the way. Now don't get me wrong, Mac is not the solution to windows, but Mac is a pretty amazing system: user friendly with operational flexibility and links to various devices.

What is the strangest thing you believed as a child? I always believed I would grow up to be a princess. I have to admit working in engineering is a lot more exciting.
