Join the ACEC-MB Young Professionals Committee for a breakfast seminar presentation of the 2017 ACEC-MB Keystone Award winning project: Water and Sewer Upgrades in Eureka Nunavut.

This is a multi-disciplinary engineering project to provide upgraded sewer and water systems under conditions unique to the High Arctic. Eureka, Nunavut is located on the 80th parallel with temperatures as low as -55 C! The presentation will be given by Paul Barsalou of AECOM who is the Project Manager for this award winning project.
